ELK Studios' Micro Knights is an adorable and quirky online slot that provides players with a delightful online gaming experience. This game will keep you on your toes with cluster wins, cascading symbols, free spins, and a slew of other interesting features. The symbol queue is a unique feature that you won't find in any other online slot game, and it can help you win big. This medium volatility game has a 96 percent return to player (RTP) and a top reward of 2500x.

How to Play Micro Knights Slot Online

Playing

Micro Knights begins when you press the spin button, which is the large circle in the bottom right corner of the screen. To change the symbols on the reel set, press or tap that button once. You must first establish your preferred stake using the command bar before redeeming the prizes hidden in this slot. You can place a wager ranging from 0.20 coins to 100 coins.

When you install Micro Knights, you'll meet a variety of characters who make the game lively and enjoyable to play. A bull, a goat, a frog, and a bunny are among the characters. These symbols represent the slot's typical paying symbols, with rewards varying depending on the icon and the amount of times it appears paired in a cluster. Matching 20 or more of these symbols will result in a maximum reward of 25,000 coins, while matching 5 would result in a minimum payout of 100 coins. A mushroom, a bull's eye, a well, and steak are among the second group of characters. These symbols represent the game's low-paying icons, with rewards varying based on which symbols are matched in a cluster. Matching 20 or more of these symbols will result in a maximum reward of 2000 coins, while matching 5 symbols will result in a minimum payout of 10 coins. Cluster wins can be found in Micro Knights, giving you many chances to make a winning combination with each spin. To receive a payment, you must match at least three symbols on the reels in a row.
