BEST PLAYTECH ONLINE SLOTS FOR

2024

There are many reasons why Playtech slots are one of the best in the industry.

Each Playtech slot game that is released is one of a kind and has special features that not many other slot games have.

Playtech slots are pretty unique in a sense because

they can range from a simple slot game with limited animations and sounds to a specific theme with special animation and voice notes implemented to make the whole atmosphere more realistic.

Another interesting fact about Playtech slots is that there are only a

few slots that use coins. The majority of Playtech slot games are simplified, and players only have to cash wagers. This way, players won't always have to pay much

attention to what they are wagering because they will always know how much they have preset as a bet. Usually, Playtech slots have a minimum wager of £0.01, and the maximum depends on which games you are playing.

AGE OF THE GODS Age of the Gods is undoubtedly

one of the best Playtech slots that have ever hit online gambling establishments. Due to the demand for the game being so big, it sparked the idea that more Age of the Gods slot games were needed. Playtech went straight to work, and since the first version of the game was released, there have been six more additions. Apart from the original Age of the Gods, today players can have a go at Age of the Gods: Fate Sisters, Age of the Gods: Furious 4, Age of the Gods: Ruler of the Sky, Age of the Gods Lord of Lightning and numerous other Age of the Gods slots that are part of the series. Players from Playtech casinos are still going wild for these games, and we are confident that more Age of the Gods versions are coming in the future. **GREEN LANTERN** Based on the famous DC protagonist, the Green Lantern slot game is just one of many superhero-themed Playtech slots. This 5-reel slot revolves around the collapse feature, which is activated when 243 play lines are hit - that line collapses, and the row above it takes its place.

This feature ends where there are no more winning lines. There are a total of 11 different symbols, some represented by 9 to A playing cards, and the rest are characters from the movie itself. Of course, there are low-value symbols and high-value symbols. The most desired symbol in the game is the wild symbol. This can substitute any other symbol in the game to make a winning line. There are also more max bonus features, some rewarding players with free spins and some giving out multipliers. **BEACH LIFE** When it comes to progressive jackpots by Playtech, this slot is one of those video slots that aren't that famous but can give you big wins. This 5-reel, 20 pay line slot is all about enjoying time at the beach. Low or high value, all of its symbols are based on a fun day at the beach, starting from ice lolly, ice cream, soft served vanilla ice cream, a scotch drink, a surfer, a woman in the sun, and a scuba diver. The two most important symbols are the scatter symbol, a sandcastle, and the wild symbol, the sun. The wild symbol has the power to substitute any symbol, apart from the scatter symbol, in a line to help with a win. Five of those sun symbols or wilds will get you the jackpot bonus on the slot, which can be close to £2 million.

SUPERMAN: THE MOVIE Playtech always wanted to incorporate slots that are based around superheroes. That is why apart from Green Lantern, Batman, and a few others, Superman was the next big superhero to get his own Playtech casino bonus game. Superman: The Movie was the first of three releases that Playtech would make. Not long after the company saw that the slot was a hit, Superman II and Superman Man of Steel were also created. All of these games have bonus features ranging from free spins, bonus spins, multipliers, and more. Today, any player can go to a Playtech casino, make their first deposit, get their welcome bonus or deposit bonus, and play any of the three Superman slot games.

PROGRESSIVE JACKPOT SLOTS BY PLAYTECH

Progressive jackpot Playtech slots are pretty different from normal ones. The main difference is that the max bonus or max payout is way higher, and while players shouldn't expect numerous wins when they get a bit of luck and do win, those winnings can be pretty massive. There are multiple progressive jackpot slots that can be found at Playtech casinos, but here are four progressive jackpots that might interest you:

Batman vs Superman: Dawn of Justice –

This slot is part of the DC Superheroes Jackpot Network, established by Playtech. There are four jackpots that can be activated, the mini, minor, major, and the biggest of them all, the grand jackpot.

Gladiator – If you are a fan of the iconic Ridley Scott

blockbuster, this progressive slot is just for you. Players will need to hit the

gladiator mask in the second, third, and fourth reel to activate the progressive jackpot. Once they have achieved that, a bonus game will start, and players will need to successfully pick 9 gold helmets and try to win the jackpot reward.

Brian Lara:

Sporting Legends – The Brian Lara slot belongs to the Sporting Legends Progressive slot series created by Playtech. At this slot, players get the chance to hit 3 progressive jackpots. The Daily, Weekly, and Mega Jackpot can be triggered randomly, meaning any spin on any betting range can trigger the jackpot.

Jackpot Giant – To be able to trigger the progressive jackpot bonus, players will have to land 5 wilds in the first pay line. Also, to be able to trigger the progressive bonus, players will have to play the maximum bet. Anything below the max bet won't qualify for the prize.

These are some of the progressive slot games that you can find at Playtech gambling sites. They all have their own features and bonus rounds, plus the progressive bonus feature that makes them unique.

PLAYTECH MEGAWAYS

The one big distinction between Megaways slots and classic slots is that classic slots have a fixed pay line number, whereas, with Megaways slots, the pay lines are decided randomly on every single spin.

The initial

idea of Megaways slots is that in order to create winning lines, players will need to land three or more identical symbols from left to right in adjacent reels.

One of the

more popular Megaways slots that you can find at online gambling establishments is the Blue Wizard Megaways. This 5-reel slot can have up to 12,348 ways to win and has an RTP set at 96.48%.

Different Playtech Slots

Series

We've delved into Playtech's best slots, progressive jackpot slots, Megaways and highest RTP games, but what is Playtech truly known for? Their SERIES... you got it! Playtech consistently adds to three lots of series. They are known by Age of Gods, Kingdom Rise, and DC (comics) series. Each has its own unique theme that is abiding by throughout the production of each game. The differences lie within the unique features and characters of each game, all the while adhering to the bigger picture of the series.

This has proven to be a smart move for Playtech over the years. Why change something that isn't broken? All the games within each series are similar enough to save on software development time yet fresh enough to release as a new and distinctive slot.

Age of the Gods series

This is the largest and most popular series within the Playtech portfolio offering 13 slots in total each with different Greek mythological gods at a focal point. Notable mentions here include Zeus's Age of the Gods: Rulers of Olympus, Athena's Age of the Gods: Goddess of Wisdom, and Medusa's Age of the Gods: Medusa & Monsters slot. Similar to our conversation about the progressive jackpots, this series hosts its own progressive jackpot network ensuring you are in for a chance to win big solely by wagering on these slots.

Kingdom Rise series

Playtech innovations

are on show within the series Kingdom Rise. Some of which include Sands of Fury, Forbidden Forest, and Battle of the Beast. The draw to this pool of online slots is the token collection. Within each game, you have the ability to collect tokens which allow you to spend within the game shop. The shop offers in-game enhancements within bonus features of your current game and also within the other games within the series of slots.

DC Series

Last but not least we have the DC series which are simply slots based on DC comics/movies. Not too long ago this was just for the nerds of the iGaming industry, however now with the production of more and more superhero movies, these are all household names. Again progressive jackpots are within this series, providing plenty of opportunities to become the next Bruce Wayne.

PLAY PLAYTECH ON MOBILE DEVICES

Playtech has gone through some significant changes throughout the years. One big difference that hit the online gambling market was making all online gambling sites mobile optimized. Mobile gaming has been on the rise, and more than 50% of UK online casino gamblers use their phone to enter the site and play the games.

The best online

casinos out there have made their websites fully mobile-optimized for their members. You can undoubtedly find Playtech slots and have a crack at them by just making a minimum deposit.
